

The data processing room at American Distilling Company, Pekin, IL,
June, 1973

Another view of the raised floor area

System console and card reader/punch

IBM Multifunction Card Unit (MFCU) and 96 column cards

2314 DASD (DISK) Units

Removable disk packs

The SYSTEM/3 CPU

Keypunch for 96 column cards

Our backup and disaster recovery system. The second shift operator had to physically remove disk drives and place in fireproof safe. First shift operator had to then retrieve disk packs, mount them, then IPL the system

Removeable 'mini' disk drive
